11. LIABILITY PERIOD

11.1. The Liability Period is the period of time specified in the insurance contract during which BTA undertakes to compensate the Policyholder for business interruption losses. The length of the Liability Period is specified in the insurance contract.

11.2. The Liability Period starts when the insured event specified in the insurance contract occurs and ends when the insured financial loss is no longer incurred.

11.3. If the business interruption period is longer than the liability period, BTA will fully compensate for business interruption losses during the liability period specified in the insurance contract.

12. INSURED EVENTS

12.1. BTA shall indemnify the Insured against financial loss suffered by the Insured if the business interruption is a direct consequence of the destruction or damage of the assets insured by the insurance contract.

13. UNINSURABLE EVENTS

13.1. BTA will not indemnify if the business interruption is the result of an event that is uninsurable under the those regulations or commercial property insurance policy.

13.2. BTA does not reimburse expenses arising from the following:

13.2.1. the failure of the Policyholder to comply with its contractual obligations;

13.2.2. breaching financial commitments;

13.2.3. non-compliance with contractual obligations of business partners;

13.2.4. losses are also not reimbursed in the following cases;

13.2.5. unforeseen delays caused by national or local government requirements;

13.2.6. incurred because the Policyholder does not have sufficient funds to rebuild the damaged or destroyed assets, which were not insured or were underinsured.

14. SUM INSURED AND INSURED VALUE

14.1. The sum insured is the amount of money, up to which BTA will indemnify for the loss suffered. The insurance benefit does not reduce the sum insured under the insurance policy if the business is restored after the insured event.

14.2. Insured value is the actual amount of profit and/or insured expenses that the Policyholder would have earned and incurred during the liability period if the insured event had not occurred to insured property and resulted in the interruption or partial interruption of the Policyholder's business.

14.3. The Insured Value is determined by the Policyholder on the basis of the results of the last preceding financial year, taking into account projected changes (growth or decline according to business plans).

14.4. It is the Policyholder's responsibility to provide BTA with the correct insurance value.

15. DEDUCTIBLE

15.1. The deductible is specified in the insurance policy and can be defined as a waiting period and/or an agreed sum of money or percentage of the loss.

15.2. The waiting period is indicated in days and starts from the moment the business stops. BTA will not reimburse losses during this period.

15.3. If the insurance policy specifies a monetary or percentage deduction, it is deducted from the compensation for the damage suffered.

16. POLICYHOLDER'S OBLIGATIONS AND RECORD-KEEPING

16.1. The Policyholder must keep proper accounting records. Inventory records for the previous 3 years and financial reporting documents must be kept in a safe place and certified copies kept separate from the originals so that they are not destroyed simultaneously.

16.2. The Policyholder is obliged to notify BTA of any business factors specified in the insurance contract that significantly affect and increase the risk.

16.3. The Policyholder must immediately notify BTA of any damage to the assets that could lead to business interruption.

16.4. In the event of an insured event, the Policyholder is obliged to allow BTA, its representatives, and auditors/experts to investigate the causes and extent of the damage and is obliged to provide BTA with all the necessary information, if requested.

16.5. The Policyholder is responsible for limiting labour costs during the liability period and for implementing other necessary measures.

16.6. The Policyholder must immediately notify BTA of factors that materially affect the business operations or the insurance value specified in the insurance contract (such as expansion of the business or acquisition of assets, use of additional premises or buildings, etc.).

17. CALCULATING THE LOSS AMOUNT, EXCESS INSURANCE, AND UNDERINSURANCE

17.1. Business interruption losses under an insurance contract are those financial losses that arise from the disruption of production or activities in the course of a business process caused by an insured event specified in the insurance contract.

17.2. The amount of the loss is equal to the financial loss incurred by the insured and the policyholder during the liability period. These are the following:

17.2.1. The loss of net profit from the insured business that the policyholder loses as a result of business interruption;

17.2.2. Fixed costs incurred that are unavoidable in the event of a business interruption;

17.2.3. Extra, economically justified, and necessary expenses incurred, if insured;

- 17.2.4.** lost rental income, if their insurance was agreed upon when concluding an insurance contract;
- 17.2.5.** Other insured and financial losses resulting from the insured event, as specified in the insurance policy.
- 17.3.** BTA's liabilities end at the end of the liability period or when the policyholder's turnover reaches the target turnover that would have been achieved had the property damage not occurred.
- 17.4.** In case of incomplete insurance, should an insured event occur, BTA will pay compensation for the loss suffered in proportion to the ratio of the sum insured to the insured value. The same ratio is applied to the reimbursement of additional costs. Incomplete insurance does not apply if the insurance value does not exceed the sum insured by more than 10%.
- 17.5.** In case of excess insurance, BTA will compensate the loss in the event of an insured event to the extent of the loss incurred.
- 17.6.** If the insurance benefit is reduced for asset insurance, BTA reduces the business interruption insurance benefit accordingly.
- 17.7.** If, after the insured event, the policyholder decides not to restore the activity, even though its restoration is economically expedient, business interruption losses are not compensated.
